**3 Preberi si dva opisa Harry Potterja, ki sta po mojem mnenju najboljša. Vidiš, kako lahko porabiš besedišče, ki ga že poznaš!**

This is Harry Potter.

He is 14 years old and lives in Grayfandom. He is thin and quite short. He has got brown wavy hair. His eyes are small and green and his nose and ears are also small. He is pale. He has got a red arrow at his forehead.

He wears black round glasses.

He is kind and smart. He is a very good person, who likes helping others. He hates evil.

He has got two best friends; Hermiona Granger and Ron Weasley. His parents are dead.

He is the magician and goes to school, where magicians are trained.

My opinion

I don't like Harry Potter, because I don't like science-fiction in the books and in the films. I started watching the film, but I couldn't watch all those snakes, dragons and other monsters.

---

He looks like a school boy and a wizard sometimes. He has dark brown long hair, green eyes, round glasses, a normal sized nose, kind of big ears and an average mouth. In school he wears a uniform. He has got a lightning scar on his forehead. He is small and skinny for his age and he has got a thin face. Harry makes a lot of mistakes, but in the end he always chooses the right thing to do. He is competitive and he is always a fighter. He is a normal boy but with his abilities and we all really admire him.

He likes hanging out with his two friends (Ron and Hermione). His favourite thing to do is magic.

I did not read the book yet, but I watched the movie and I liked it, because there's a lot of action and fighting with magic.
